COMPTIA SECURITY+ CERTIFICATION
(Exam Prep)

Receive your certification and advance in your career.

CERTIFICATION OVERVIEW

CompTIA Security+ Exam Prep: SY0-501

Plan for the CompTIA Security+ SY0-501 affirmation exam with the CompTIA Security+ SY0-501 course and lab. The lab recreates real-world, equipment, programming, and order line interface conditions and can be planned to any reading material, course or preparing.

CompTIA Security+ course and lab give the abilities and information needed to distinguish hazard, partake in hazard moderation exercises, give a framework, data, operational, and application security. This affirmation covers the main standards for making sure about an organization and overseeing hazards.

Pre-Requisite Basic familiarity with PCs and networks. There are no specific prerequisites since the course covers all the topics in detail. It is a good idea to have an understanding of CompTIA A+ and Network+ or to be certified in these topics.

Expected Salary The average salary for a professional with CompTIA Security+ certification varies according to the designation. According to PayScale, the average salary range of a network engineer with this certification varies from $51,000 – $108,000.
